

SPONSORSHIP - Policy & Statement

The Greenham group of companies (HW Greenham & Sons P/L, Greenham Tasmania P/L and Greenham Gippsland P/L) are proud to sponsor a variety of initiatives and welcomes your application for sponsorship.

If you would like Greenham to consider support for your activities or events, you will need to submit a proposal. (Please see the Sponsorship Page on the website).

The company owns and runs three export accredited meat works whose purpose is to support beef and dairy production across Australia and build a prosperous business for all its stakeholders.

The parent company has operated since 1994 and is highly regarded as a supporter of many community bodies, charities and sporting associations.

In considering any sponsorship, the main criterion is to reach as many people as possible across the regions from which we source cattle and employ staff.

Preference is therefore given to those charities and organisations with a large reach so that we may engage with a broad section of existing and potential stakeholders.

In addition, the company is committed to financially supporting those organisations and causes, as nominated by the business, that are aligned with our values and aspirations except those from religious, political or socio-political organisations and those that promote smoking, alcohol, violence or gambling.

Each year we receive hundreds of proposals and unfortunately we are unable to support all of them. We seek your understanding if we politely decline your request.

Please allow as much time as possible for us to consider your proposal, a minimum of one month's lead time is essential to allow for processing.
