Certificate of Approval

Scope of certification for the program:

GAP Producers Group (Cape Grim)

The Global Animal Partnership (GAP) Producers Group (Cape Grim) includes the specification and traceability of cattle through production, transportation and processing sectors. Cattle are produced under a management system where the following requirements are met:

- Accreditation under the GAP 5-Step™ Animal Welfare Program, Step 4 Rating.
Scope of the 5-step animal welfare rating program. The intent of GAP 5-Step™ Animal Welfare Program is to improve farm animal welfare by substantiating compliance with the standards through independent third-party verification. Currently the standards cover on-farm and transport components of animal production.

GAP writes and develops standards and accredits Certifiers to conduct independent third-party on-farm audits to the 5-Step™ Animal Welfare Rating Standards.

- Registration as a MSA Producer.

Greenhams Additional Addendum:

- 100% Grass-Fed
- No Added Hormones
- No Antibiotics Ever
- Free Range – Never Confined to Feedlot
- Free from Genetically Modified Organisms
- Meat Standards Australia Certified
- Cattle must be lifetime traceable from the property of birth through to slaughter

Cattle are processed at the Greenham Tasmania export registered processing facility at Smithton, under an Australian Department of Agriculture, Water and the Environment approved arrangement and an AUS-MEAT Accredited Production Program, in addition products are subject to:

- Procedures for post-mortem checking of HGP free status.
- ID and Traceability requirements of meat processing QA programs.
